Nancy VandenBerge

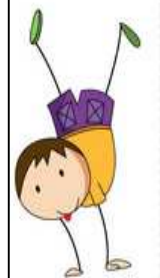

Dear parent

Summer vacations are synonyms of fun and frolic. There is no doubt that vacations are most appropriate time for the students to refresh and rejuvenate themselves to show case their performance more enthusiastically. Children have ample energy which needs to be channelized in the right direction to get the best out of them. Keeping this in mind the holiday homework has been designed to make them more observant and confident.

Guidelines for parents:

- Holiday homework should be done under parental guidance and not by parents.
- The child should have fixed time on daily basis for doing assignments.
- Before colouring guide him/her to colour in same direction.
- Nurture your child's interest – be it art, music, dance, or anything else.
- Let him/her pursue a hobby of his/her own choice.
- Please train your child to become independent in his/her daily chores.
- To develop speaking skills help him/her to learn a story. The child should be able to narrate the story.
- Encourage your child to converse in English.
- Monitor your ward's T.V viewing and select the programmes to be seen depending on the age and development of child.

Encourage your ward to write his/her full name and date on practice worksheets.

Good manners and good habits are lifelong assets and they should be practiced until they become habit.
