THE POWER OF HAWAN

Hawan has its own importance in Vedic culture. Hawan is a sacred purifying ritual performed by involving the ultimate source of energy and fire is a representation of the Sun's energy.

Hawan has a purifying effect on both devotee as well as one's environment. The chanting of mantras and offering into the fire re-energizes, revitalises and rejuvenates our spirits high like fire 'Agni'. The material which is used in the Hawan produces a fumigatory response to the atmosphere; purify the environment around us by destroying harmful micro-organisms and pollutants in the air. This induces peace, prosperity and good health.

Therefore it's been a common practice in our school to make the students learn the proper method of doing Hawan by chanting mantras. Every class will perform **Hawan on every Wednesday** as per following schedule:
